

INTEGRATED POLICY

The General Management of INDUSTRIAS DUERO in its firm commitment to quality, the environment and safety and health at work, as fundamental pillars in the development of our business activity, has created an Integrated Management System, to manage its business of design, production and marketing of road safety elements and metal structures. Our System is aimed at providing our customers with efficient solutions that continuously meet their technical, logistical, and commercial expectations, respecting the environment and safeguarding the safety and health of our workers.

The Management of INDUSTRIAS DUERO undertakes to disseminate this Integrated Policy at all levels of the organization and stakeholders, to promote its compliance, as well as to provide the necessary resources for its achievement.

This Policy serves as a guide to the integrated management system, providing the reference framework to establish and review the objectives of quality, environment and safety and health at work.

Our objectives are based on the following premises:

Meet customer requirements

To maintain the loyalty of our customers, establishing a lasting and profitable relationship, complying with their requirements and expectations, efficiently fulfilling the supply commitments acquired both in time and in product quality, and always seeking excellence in the treatment dispensed.

Continuous innovation and development

To promote research and development to obtain innovative and competitive products, making INDUSTRIAS DUERO a benchmark of excellence in the sector in terms of prestige, reliability, seriousness, and offer of products and services to the client.

Comply with legal and other requirements

To comply with all legal, regulatory, and other requirements applicable to our activity relating to quality, the environment and health and safety at work.

Paying special attention to the requirements of the CE marking, guarantee of compliance with the essential safety requirements.

Protecting the environment

To prevent pollution of the environment, throughout the life cycle of our activity, through proper management of resources and protection of the environment.

Implementing actions to reduce and improve our impact on the environment, as well as consider other specific commitments relevant in our context.

Manage risks and provide safe and healthy working conditions

To assess the risks, to eliminate them or reduce their severity, contributing to the well-being among our workers.

To provide safe and healthy working conditions for the prevention of injuries and deterioration of health and that are appropriate to the purpose, context, and dimension of INDUSTRIAS DUERO.

Favouring a participative environment

To train and inform our workers on a continuous basis, promoting their consultation and participation, as well as that of the workers' representatives (where this figure exists) and between the different levels of INDUSTRIAS DUERO.

Continuous improvement

Efficiently manage the integrated system, establishing objectives for continuous improvement in all aspects of our activity, in terms of quality, safety and health at work and the environment, with a clear commitment to prevent pollution and deterioration of health.

Promote continuous improvement by assigning roles and responsibilities to committed people, so that the result translates into product quality, safe and environmentally friendly working conditions, also providing satisfactory economic results.

Mr. Jose Antonio Vergas Olmedilla
Executive Director Industrias Duero, S.L.
