

ENVIRONMENTAL PERFORMANCE COMMUNICATION

- SIGNIFICANT ENVIRONMENTAL ASPECTS -

In accordance with the International Standard ISO 14001:2015 and within the scope of application of the Integrated Management System, **INDUSTRIAS DUERO** informs its personnel and other interested parties of the most significant environmental aspects that have been identified and evaluated in the development of its activity.

Definition of ENVIRONMENTAL ASPECT: Element of the activities, products or services of an organisation that can interact with the environment.

IDENTIFICATION		DECEMBER 2023
Aspect	Activity/ Location	Environmental impact
Electricity consumption	Machinery, lighting, office equipment	Resources consumption
Diesel consumption	Vehicles	
	Forklift trucks	
Water consumption	Domestic	
Exhaust gas emissions	Transport	Air pollution/climate change
Generation of Hazardous Waste mixed containers 15 01 06	Manufacture	Soil and water pollution
Generation of Hazardous Waste contaminated rags, contaminated sepiolite 15 02 02		
Generation of Hazardous Waste oil filters 16 01 07		
Generation of Hazardous Waste contaminated metal containers 15 01 11		
Generation of Hazardous Waste contaminated pressure vessels 15 01 11		
Generation of Hazardous Waste contaminated plastic containers 15 01 10		
Generation of Hazardous Waste mineral oils 13 02 05		
Generation of Hazardous Waste RAEES	Office	Soil and water pollution
Generation of Hazardous Waste Batteries		
Exhaust gas emissions	Vehicles external suppliers of products/subcontractors/waste management	Air pollution/climate change
Noise		Noise pollution
Hazardous waste		Soil and water pollution
Hazardous waste	Maintenance of own vehicles in external workshop	Soil and water pollution

Environmental impacts are assessed annually based on criteria of nature, frequency, probability, and severity. We act on the most significant environmental aspects within the scales of our procedures and establish annual objectives for those aspects whose level of significance is greater to reduce their criticality.

INDUSTRIAS DUERO wishes to express its commitment to the environment, marking as one of its Environmental Objectives, the minimisation of **WATER consumption**.
